GREATEST BATTLE OF WAR IS EXPECTED

Heavy Artillery Fire Kept Up For Last Three Days.

RUSSIA WANTS TO END CONFLIC

Revolutionary Outbreaks in Russian Empire Believed to Be Cause of Kuropatkin's Move—Admiral Togi Rejoins Fleet—Other War News.

General Oku's Headquarters, Jan. 27. —Noon, via Tien Tsin, Feb. 1.—(Delayed in Transmission.)—After three months of inaction there is now a prospect that the armies of General Kuropatkin and Field Marshal Oyama will soon join in what will likely prove the greatest battle of the war. For some days past the Russians have been quietly massing troops on General Oku's left, evidently preparing for an attempt at a turing movement.

For three days past a heavy artillery fire today toward the center. The Japanese have not replied to the cannonade, awaiting an attack by the Russians who have been heavily reinforced. It is believed now that they have numerous divisions along the Shakhe river.

The Japanese force has also been increased and everything now seems ready for the greatest conflict yet recorded in the history of the present war.

The move upon the part of the Russians seems to indicate a desire to strike soon, in a desperate attempt to avenge the fall of Port Arthur. Probably the revolutionary outbreak in Russia has determined General Kuropatkin to make a desperate effort to gain a victory before the outbreak in Russia becomes known to the army. The utter failure of the recent cavalry raid by the Russians on the railroad shows the futility of further attempts of the kind. With the ground so solidly frozen the troops on the advance would have great difficulty in entrenching to secure the slightest cover. The advantage of the sun would be entirely on the side of the army on the defensive. With the thermometer at zero and the ground covered with snow, a battle when fought would be over a great plain, where the south sun can be of no advantage to either side.

Activity Around Mukden.

Mukden, Jan. 31, via Tien Tsin, Feb. 1.—Connading on the center and right commenced again today. The Russian army has reoccupied its old positions having returned from Sanchiapu.

The main event in the interior of Russia have been published in the official army paper so that the troops to a certain extent realize the present conditions but the plans for the army are shown to be entirely independent of home events. The reasons given by the commanders for retiring fully explain the army's movements and show them to have been independent of the weather. A large part of the wounded are being cared for at Mukden, where the hospitals and trains are filled and the Red Cross corps is active.

The situation as it further develops is better realized and understood, although it is not less ominous, as the weather has moderated and the Japanese are aggressive.

Regarding the first reports of large Russian losses it is now said that a considerable part of the first corps and General Stakelburg, its commander, have rejoined the main body of the army and retired to their old positions.

News from Tokio.

Tokio, Feb. 1.—Noon.—Field Marshal Oyama, reporting yesterday, says that the Russians bombarded his center and right wing on Jan. 30, and sent small bodies of infantry to attack the Japanese outposts, where they were repulsed.

On the same day heavy Russian guns shelled Pinyuantai and Chenchiehpao. On Jan. 31, the Russians bombarded Chenchiehpao, Lapai and Liupentan, and two companies of infantry attacked Chenchiehpao, advancing from the south and near Peitaitzu. The Japanese repulsed them.

On Jan. 30 two companies of Russian infantry successfully attacked Yatzupao, 2 miles northwest of Chenchiehpao and two battalions of Russian infantry and a regiment of cavalry in an attack on Tutaitzu.

Field Marshal Oyama in reporting the wounding of Lieutenant General Mistchenko, who had learned of from Russian prisoners, characterize General Mistchenko's attacks upon the Japanese flank as brave.

Admiral Togo will return to his flagship Feb. 6. The immediate naval plans are not disclosed.

The emperor has issued a rescript to Marshal Oyama's army thanging the troops for the defeat of a superior Russian force in the recent battle. Oyama, responding, says the men fought desperately day and night in intensely cold weather.

The Austrian steamer Siam, bound for Vladivostok, from Cardiff, laden with coal, was seized off Hakkaido island yesterday.

BIG $9,000,000 DAM COMPLETED.

Where Greater New York Will Get Most of Its Water.

New York, Feb. 2.—After ten years of labor and the expenditure of $9,000,000 the new Cornell dam, near Croton, on the Hudson river, in Weschester county, from which this city will draw largely for water supplies, has been practically completed. It is the largest piece of masonry in the world, except the pyramids of Egypt.

The flood-gates have been shut down for the first time and the dam has begun filling with water. It is estimated that it will require about 2 years for the dam to fill. When the water reaches the base of its coping, it will make a lake 16 miles long.

For the first year New York's principal supply of water will come from the overflow of the old Croton dam. The latter will then be flooded and there it will rise 30 feet above it. The new dam will hold 30,000,000,000 gallons of water.

The original contract price for the dam is $5,000,000, but the contract is broken and the work is now being done by the cubic yard.

MORSE RETURNS TO AMERICA.

Principal Figure in Big Matrimonial Tangle in New York.

New York, Feb. 2.—Charles W. Morse, formerly president of the American Ice company and promoter of an extensive bank consolidation plan in this city who has long been the central figure in one of the most sensational matrimonial tangles of recent years arrived here today on the steamer Deutschland after a prolonged stay in Europe.

Mrs. Clemence Cowles Dodge-Morse, the millionaire's wife, did not accompany her husband.

Mrs. Morse said he had returned to answer any charges that may be made

During the absence of Mr. Morse abroad the long and searching investigation of the Dodge divorce reached a point where the grand jury of New York returned criminal indictments against at least half a dozen persons, among them two lawyers of wide prominent already in possession of the district attorney's office by requiring the appearance and testimony of Morse.

Wallace Released on Trial.

Hawkinsville, Ga., Feb. 2.—Joe Wallace was tried here for the killing of Clocis Ragan, a few nights ago, near here. The evidence was not sufficient to convict him, and he was released. Wallace claimed that just after dark his wagon passed another. A party in the other wagon began shooting at him and he returned the fire, not knowing at the time who it was until the next day, when Ragan died.

New Companies Formed.

New York, Feb. 2.—Figures of new companies formed in the eastern states in January with a capital of $1,000,000 or more, reached a total of $116,150,000. This is an increase over the December figures which aggregated $107,306,000, and also over January figures of last year, which were only $19,508,199.

EMPEROR NICHOLAS RECEIVES WORKMEN

The Czar Decides To Talk With Those Who Toil.

TOLSTOI COMMENTS ON RIOTS

Great Writer Says that the Working Classes or Intelligent Classes Are the Exponents of the Real Desires and Needs of the People.

St. Petersburg, Feb. 2.—Emperor Nicholas has decided to receive a deputation of workmen today at the Tsarskoe-Selo.

The retirement of the interior minister, Sviatopolk-Mirsky, was officially anounced, his ill health being assigned as the reason. M. Dournovo, former minister of posts and telegraphs, becomes acting minister of interior. M. Bouligan, former Governor general of Moscow, seems most likely to be Prince Sviatopolk-Mirsky's successor.

It is extremely significant that following the Associated Press' interview with Grand Duke Vladimir yesterday, M. Souverin, editor of the Novoe

Tolstoi, Russia's Great Reformer.

Vremya, in that paper this morning comes out strongly in favor of a zemsky zabor (old land parliament) which he declares will not only maintain but will strengthen autocracy. It would be a channel of communication between the soverign and the people without which it would be impossible to have a lasting reform.

There is no truth in the sensational report circulated by a news agency in the United States yesterday to the effect that armed strikers were marching on Cronstadt fortress and that Admiral Birileff, the commander of the fortress, had called out the sailors to protect the place.

Tolstoi Comments on Riots.

New York, Feb. 2.—A dispatch from Moscow to the American says Count Tolstoi has made the following comment on the recent outbreaks in Russia, meager reports of which have reached the aged writer at his home in the country.

"Neither the working classes nor the intelligent classes of Russians are true exponents of the real desires and needs of the people.

"The program which they submit to the government is not the program of the people. These elementary measures which they demand of the government—such as freedom of person, freedom of speech and freedom of conscience, etc., though essential conditions for a life of culture, do not touch the problem of the crying need of the people, which lies solely in the nationalization and communism of land.

"On this point neither the workingmen nor the educated classes raise the cry, nor do we hear any such cry from the peoples of other lands, despite the apparent freedom of these countries, there exists the so-called independent press, but its independence is only apparent.

"The only possibility of a change in the general policy of civilization lies in perfecting the individual morally and religiously. Then, through the development of the individual, through moral improvement, through inoculation, real respect for other, through hatred of force, cruelty and injustice, will disappear."

Warsaw is Quiet.

Warsaw, Feb. 1.—Noon.—The city is quiet, although great tension still prevails. Some stores and offices have been re-opened, but only two newspapers were published this morning. The strike has extended to the sugar refineries and other factories in the districts around Warsaw.

Police Chief Shot.

Odessa, Feb. 2.—Chief of Police Galovine was shot close to the police station in this city today, and was wounded in the right shoulder. The wound is not serious.

THINK MOTHER KILLED FAMIL

Opinion General That Mrs. Kirby Committed the Murder.

Wauchula, Fla., Feb. 2.—It is now believed that the Kirby tragedy was caused by the wife and mother. Here is the story as now told:

John Kirby, his wife and four children, who met death recently, came to Waucula last October from Blount county.

Between 8 and 9 p. m. Jan. 24 fire was seen coming out of the house by Mr. Harrell, the father-in-law, who lived across an open field about a quarter of a mile distant. He ran to the house, found the door and window closed and fire coming out through cracks and through the roof. The fire was so hot he could not get to the door or the window.

There had been a gallon of kerosene oil taken to the house on the day before.

When the house was burned down the kerosene can was found unexploded. Man's skull and that of the oldest boy, 13 years old, were both broken in on the side. The woman's skull was intact. The skulls of the three smaller children were entirely burned.

All the family evidently perished on their beds except the wife and one child. A hammer was found not far from where she lay.

The concensus of opinion is that she did the deed, using the kerosene oil to fire the house and then took her own life.

NEGRO ATTACKS WHITE WOMAN.

While Tending Graves Mrs. Percy Spellman Was Attacked.

Augusta, Ga., Feb. 2.—While tending the graves of her dead in the city cemetery Mrs. Percy Spellman, a respected young white woman, was assaulted by an unknown negro man. The negro sought to stifle the screams of the young woman, but she was able to wrench herself free and cry out. The negro immediately put off into the foliage and was soon lost in the maze of avenues that run in all directions.

It is not known whether the police have caught the negro or not. They profess the utmost ignorance in the matter, although it is known that all the detectives and several regular officers, who have been put in plain clothes, assisted by the county authorities, are working hard on the case.

Mrs. Spellman is scratched and somewhat bruised, and is also the victim of very severe shock. She is unable, as yet, to be out of her room.

The friends of Mrs. Spellman are very much worked up over the attack and if they find the negro there is no doubt but that violence will be visited on him.

Dynamite Does Serious Work.

Tallapoosa, Ga., Feb. 2.—Frank Songer's wife was seriously injured this evening by a dynamite explosion. One leg was shattered above the knee near the thigh, and a part of a stove was blown through the other. Every window in the house was shattered and a child was blown entirely out of the house into the yard. Some workmen in digging a well last summer had used dynamite for blasting and had carelessly put one stick left over into an old stove for safekeeping. Tuesday Songer moved into town and the old stove was brought along and set up. Mrs. Songer made a fire in it this evening with the results stated.

GINNERS REFUSED TO MAKE REPORT

Over Four Hundred Ginneries Not In Bureau's Estimate.

OTHER NATIONAL CAPITAL NEWS

Postoffice Appropriation Bill Being Considered by the House—President Roosevelt Sends Several Appointments to the Senate.

Washington, Feb. 2.—The census report for cotton ginned to Jan. 16 in 695 counties shows 9,717,693 bales, counting round bales as half bales, compared with 7,168,381 bales in the same counties last year. The quantity ginned in these counties between Dec. 13 and Jan. 16, is 494,955 running bales. To Dec. 13, 1904, the remaining number of unreported counties had ginned 2,798,738, counting round bales as half bales. Four hundred and seventy-seven ginneries refused to report. The quantity previously returned by these has been brought forward in this report without addition. The total amount brought forward is 134,111 running bales.

In the House.

Before proceeding with the postoffice appropriation bill, which has the right of way the house today took up several matters of routine character, among them being the appointment of Edwin P. Hammond, of Indiana, as a member of the board of managers for the national soldiers' home at Marion, Ind.

The house adopted the conference report on the fortifications bill which was only a partial agreement, as the senate amendment requiring detailed estimates was still in dispute. A further conference was ordered. The bill carries $6,747,893.

Consideration of the postoffice appropriation bill was then resumed.

In the Senate.

At the beginning of its session today the senate resolved to insist on its amendments to the army appropriation bill and Messrs. Proctor, Scott and Cockrell were appointed conferees on the part of the senate. The principal item in dispute is that relating to the assignment of retired army officers to duty with state militia.

The president today sent to the senate the following nominations:

Consul general, William Martin, of New York, at Hankow, China.

Consuls—James C. Kellogg, of Louisiana, at Barranquilly, Colombia; Daniel S. Kidden, of Florida, at Nankin, China.

Register of land office—Walter L. Cohen, of Louisiana, at New Orleans.

Postmasters — Arkansas: Henry ing, Huntington.

Georgia—James D. Dever, Rockmart; Alice B. Bussey, Cuthbert.

Louisiana—Thomas J. Woodward, New Orleans.

Texas—Lafayette Sharp, San Augustin; John C. Mellride, Woodville.

Also promotions in the navy.

$75,000 Fire at Springfield, Tenn.

Nashville, Tenn., Feb. 2.—A Springfield, Tenn., dispatch to the Banner says that fire at that place at an early hour this morning destroyed property valued at $75,000. Several of the best business houses in the town were burned. The heaviest losses were sustained by Dublin, Gleen & Co., dry goods, loss $32,000; Smith Bros. & Dorris, groceries and hardware, $9,000; McFerrin & Gill, $9,000. The losses are partially covered by insurance.

Day of Fasting and Prayer.

New York, Feb. 2.—A call designating Saturday, Feb. 4, as a day of fasting and prayer for Christians of America, has been distributed among nearly all the Protestant churches in this city. Attention is called to the religious revivals now under way in England and Wales, and the hope is expressed that they may mark the beginning of a world-wide movement. Special union services of prayer and song will be held on the day designated in many churches of Greater New York.

R. R. EXTENSION PROGRESSING WELL

J. & S.-W. Will Reach Suwannee River Within Three Months.

THE PEOPLE ARE JUBILANT

They are Happy Over the Prospect That They Will Soon be Living in a New Sphere—Demand for Land Great—Big Influx Anticipated.

With the progress of the extension of the Jacksonville and Southwestern Railroad from Newberry westward to Perry, the good people of the section which it is proposed to traverse are becoming more elated, because they realize that the construction of the road will virtually place them in a new world. For generations those people have labored under the great disadvantage of absence of transportation, the only mode being by private conveyance.

Perry M. Colson, who has just returned from the West End, states that rapid progress is being made on the extension, and that at the present rate, within the next three months the road will be completed and in operation from Newberry, the present terminus, to the Suwannee River, a distance of about twenty-three miles.

The extension of this road is resulting in a general influx to that country. There are a great many who want to make homestead entries, many of whom have already done so, and the United States land office is daily receiving inquiries regarding lands in this new country. The country is also rich in phosphate and timber, which will naturally extend the naval stores and mining industry. It is also a magnificent farming country, with fertile soil capable of growing as fine and prolific crops as can be produced in the United States.

Fortune and prosperity is indeed smiling on the good people of Western Alachua, LaFayette and Taylor counties, and they have a right to feel jubilant.

ARE EXTENDING LINES.

East Florida Telephone Company are Covering New Territory.

E. E. Voyle of the East Florida Telephone Company made a brief visit to McIntosh yesterday, where he went to look after the interest of the line.

The system, which extends from Gainesville to various points in the county, is one of the most convenient in the State. It reaches a most thrifty class of people, and as a result is enjoying a fine patronage. The line is now being extended to Evinston from Micanopy, and by the end of the present week will be in operation. It will afford the merchants and growers of Evinston and intermediate points an opportunity to communicate with Gainesville, with the result that a most satisfactory service may be performed.

The East Florida Telephone System, which is gradually being perfected, is a matter of local interest. It is an enterprise in which home people are solely interested, and besides being an encouragement to them it is a convenience which will prove worthy of the patronage of the people.

DEATH OF F. E. WILLIAMS.

Good Man of Alachua, and Leading Citizen, Passed Away Thursday.

Information was received in this city Thursday afternoon of the death of Furman E. Williams, which sad event occurred at his home in Alachua at 11:30 o'clock Thursday morning.

Deceased was one of the most widely know men in this section, if not in the entire county. He was about fifty years of age, and has been a resident of Alachua county for the past twenty-eight years. He was one of the leading business men and most enterprising spirits of this county, and his loss will be heavily felt, especially in the Alachua section, where he held large interests.

Mr. Williams was a member of the Baptist church. He was possessed of a gentle, Christian disposition, and had many friends throughout the country.

The funeral will be held from the residence Saturday morning at 9 o'clock, and the interment will be in Newnansville cemetery. Friends of the family are invited.

WHY DOES A BABY CRY?

Because it is either hungry or in pain. Properly nourished it will usually grow up right and be comfortable—that's the principal thing for a baby. If its food lacks strength and nourishment add Scott's Emulsion at feeding time. A few drops will show surprising results. If a baby is plump it is reasonably safe. Scott's Emulsion makes babies plump.

TRENTON HAPPENINGS.

Extension of J. & S.-W.—Farmers Preparing for Crops—Other Notes.

Trenton, Feb. 2.—Deputy Sheriff J. H. Granger of Gainesville was in Trenton Monday.

W. J. Williams and G. F. Rutledge of this section departed on January 11th for Porto Rico. They were last heard from in New York.

Justice J. W. Drummond has returned from a trip to the East End.

H. Love has established a tie camp here.

The J. & S.-W. railroad will soon be here. The right-of-way has been cut from Newberry to a point three miles past Trenton. It will be open to the Suwannee River in a few days.

The farmers are busy preparing for the sowing of oats and other crops.

Streets Being Improved.

It is a source of satisfaction to note the various improvements which are being made upon the streets in various sections of the city, as well as the rapid building and extension of others.

Within the past few months not less than five miles of streets and roads have been constructed, and they have been constructed in a systematic manner, of material that will last.

Among the most important municipal improvements in this direction is the paving of streets in East Gainesville. The property owners of that section, full of energy and enterprise, have assisted the city wonderfully in this great work, with the result that almost every principal street in that section of the city has been properly graded and paved. This enhances the value of property largely, to say nothing of the convenience afforded.

The depressions in some of the streets which have been in evidence for many months are being filled in, and altogether the improvement in streets has been very noticeable to the people here.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." Sold under guarantee by all druggists at 50c a bottle.

Girls Should Marry Young.

New York, Feb. 2.—In an address before the league for education here, Simeon N. Patten, professor of social economy of the University of Pennsylvania, has advocated that women shall marry early and when married they shall work in order to have economic independence. Professor Patten deplored the fact that so many married women are in the leisure class. He argued that if the ideal which is held by so many men in regard to the support of their wives is carried or much further, it will result in a deterioriation of the race and a real danger to society.

Tax Unmarried Men.

Nashville, Tenn., Feb. 2.—The lower house of the state legislature has passed the Rawls bill, taxing unmarried men, after it had been amended so as to apply only to Dyer, the home county of the author of the measure.

FIFTEEN STATES REPRESENTED.

Wholesade Grocer's Association Holds Important Meeting.

New York, Feb. 2.—Fifteen states have been represented at the annual meeting here of the presidents of the various state Wholesale Grocers' association, comprising the National Grocers' association.

The meeting was considered by those present as one of the most important in recent years. Various matters connected with the trade were discussed including the jobbing grocery business and it was unanimously decided that the executive shall at once call a meeting of the wholesale grocery trade of the country to organize a general movement in an effort to fully protect the wholesalers' interests.

The supporters of the plan urged that a single national meeting of the character would be more productive than a large number of state meetings in that it will get representative and influential grocers of the country together and thus start a movement that will be simultaneous.

TWENTY INJURED IN WRECK.

Freight Train and Loaded Street Car Collide in Ft. Worth.

Ft. Worth, Tex., Feb. 2.—Twenty persons were injured, two seriously in a collision between a freight train on the St. Louis and San Francisco railroad and a street car at the stock yards crossing in the northern limits of this city this morning.

Seriously injured:

Miss Martha Andrews, North Ft. Worth, bruised about the head.

A. R. Knowles, North Ft. Worth, cut and bruised about the head.

About 45 persons were in the car coming to the city. The air was thick with fog and three stock cars in front of a 'Frisco engine, according to the motorman, so obscured the headlight that he did not see the engine approaching. A freight car struck the rear of the street car, throwing it 30 feet.

Warm Meals For School Children.

New York, Feb. 2.—Plans for providing 70,000 school children of Norfolk, with a warm meal at the beginning of each day conceived by Commander Eva Booth, of the Salvation Army, will be put into operation this morning. Three stations will be opened—one on the lower East Side. Others will follow until the sections of the city, where conditions demand, shall have been covered. These stations will be open from 7 to 9 o'clock each morning, and every child, pupil or otherwise, will receive a breakfast for the asking. Quarters where they may warm themselves also are provided.

Health

Means the ability to do a good day's work, without undue fatigue and to find life worth living. You cannot have indigestion or constipation without it's upsetting the liver and polluting the blood. Such a condition may be best and quickest obtained by Herbine, the best liver regulator that the world has ever known. Mrs. D. W. Smith writes, April 3, 1902: "I use Herbine, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents. Sold by W. M. Johnson.

Feathered Barometers.

There are lots of birds which prophesy rain and storm in their actions. Crows, gulls, wild duck, snipe, plovers, woodpeckers, cormorants, wild and tame swans and most of the wading birds show great restlessness when stormy weather is approaching. They fly swiftly and often aimlessly up and down, fluttering from tree to tree and place to place, and usually scream loudly and harshly.—Nature.

MRS. M'CREARY HONORED.

...ed With Beautiful Token in Re... as President of Kirby Smith.

...Smith Chapter, U. D. C., held ...most interesting meetings ...eir organization on Thursday ...on at the home of Mrs. J. F. ...try, Jr. It was the la... regular ...a meeting of the pres...t administ...n, and there were twenty-two ...rs present, all eager to do hon... the retiring president, Mrs. H. McCreary, who has been the pre...ing officer of Kirby Smith Chapter for the past four years.

One of the pleasant features of the meeting was the presentation from the Chapter to Mrs. McCreary of a beautiful silver fruit stand as an expression of the high regard which the members of Kirby Smith Chapter feel for their retiring president. Mrs. J. N. Strobhar, the newly elected president, made the presentation with the following remarks:

"Madam President: Before beginning the regular order of business may I ask the privilege of expressing to you the affection and esteem which we, the members of Kirby Smith Chapter, feel for you, our retiring president. During the past four years, we know that your first thought has been for the cause of Kirby Smith Chapter; that you have 'piloted' us through shadows and sunshine, and leave us upon a fine foundation; with ninety-two members, next to the largest Chapter in the Florida Division, and one of the most prosperous, proves the result of your labor of love for your loyal Daughters.

"Though others will occupy your chair at the president's desk, we will always look to you as our head, and as the years go by your administration will be pointed to as the most prosperous and eventful in the history of 'Kirby Smith.'

"And now, Madam President, in the name of your Chapter, we offer you this gift as a token of our love, and we ask you to accept it as an offering, expressive of our appreciation for the service you have given to Kirby Smith Chapter, Daughters of the Confederacy."

Mrs. McCreary replied with a heart to heart talk, which appealed to all ladies present, and which still further endears her to the members of Kirby Smith.

Jolly Hunting Party.

That was a jolly hunting party comprising A. O. Steenburg, J. M. Dell, W. R. Steckert, and Dr. Sangston of Uniontown, Pa., who went on a hunting trip Thursday, which resulted in a big success.

The only unpleasant (?) feature of the hunt was a determination of Captain Dell, who is the boss hunter of this section, to "out-do" Mr. Steckert, who is somewhat of a marksman himself. Captain Dell declared he would kill more game in one shot than Mr. Steckert would destroy in a whole day, but in the general wind-up it was discovered that Mr. Steckert not only bagged more birds than Captain Dell, but twice as many as the whole bunch put together.

Question—How many birds did Mr. Steckert kill?

A premium will be offered to the first party giving the correct answer.

Attention, Odd Fellows.

The regular weekly meeting of Centaz Lodge No. 11, I. O. O. F., will be held at the lodge room over Dutton's bank this evening, beginning at 7:30 o'clock. A full attendance is desired, and visiting brothers will receive a cordial welcome. There will be work.

AFTER SICKNESS

VINOL IS A WONDERFUL TONIC AND STRENGTHENER.

W. M. Johnson Refunds Money in All Cases Where it Fails to Give Satisfaction.

"During the past few months there has been a great deal of sickness of one kind and another in this vicinity," said Mr. W. M. Johnson, "and I want to say to the people of Gainesville that the one thing to aid recovery after sickness is to give the patient a blood building and strength restoring tonic, one that will give strength to every organ in the body.

"Now," continued Mr. Johnson, "I don't believe there is another remedy in the country equal to our delicious cod liver oil preparation, Vinol, for making pure, rich, red blood and building up strength. I say this from an intimate knowledge of almost every medicine on the market, and after considering what Vinol is and has done.

"Vinol contains every one of the body-building, medicinal elements of cod-liver oil, without one drop of oil to upset the stomach and retard its work, and this with organic iron, which is a needful constituent for the blood, dissolved in a delicious table wine, makes Vinol. It acts directly on the stomach, creates a healthy appetite, and enables the digestive organs to obtain the necessary elements from the food eaten to make rich, red blood, and healthy flesh, and muscle tissue, and create strength, and you know what you are taking."

Continued Mr. Johnson, "We have a good many letters like the following:

"Mr. A. Manser of Poughkeepsie, N. Y., writes: 'A severe fever left me in a very weak condition, and no matter what I took I could not seem to get any strength, until through a friend I learned of Vinol. Two bottles worked wonders on me, so quickly did it restore my health and strength, and I am fast gaining in weight. Vinol is a wonderful strength creator.'

"In the strongest manner we unhesitatingly endorse and guarantee Vinol to increase the appetite, cure stomach troubles, give strength and renewed vitality to the aged, build up the run down, tired and debilited and restore health to the convalescent or we will return every dollar paid us for it." W. M. Johnson, Druggist.

GERALD'S NEW HOME.

Work Progressing Nicely—Will be One of Most Modern Homes of City.

A large force of carpenters under direction of Contractor Whiting are busily engaged on the new Gerald home, which will be located desirably on East Main street, N.

When completed this will be one of the handsomest, as well as most modern and conveniently arranged, in the city. It will be two stories, containing seven rooms. The house will be equipped with a bath-room on each floor, which will be another matter of convenience seldom found in residences in this section.

The building will cost $2,500, and the owner considers that it will be money wisely invested.

The Park Theatre.

The Park Theatre Company appeared before a good audience last night in the presentation of "East Lynne." The performers retained their reputation as first-class in every respect, and all who attended were well pleased.

This afternoon at the matinee "Ten Nights in a Barroom" will be presented, and in the evening those who attend will have the pleasure of witnessing one of the greatest plays ever written, "The Gild Homestead." It is needless to add that the characters will be appropriate and well assumed.

Funeral of Mrs. Ormand.

The funeral of Mrs. Nancy Ormand, the sad death of whom occurred at the home of her daughter, Mrs. W. D. Dickinson, was held at Providence church at 12 o'clock Thursday, Rev. M. T. Bell of Reddick officiating.

The services were attended by a large number of sorrowing friends, many of whom had known the deceased for many years. The interment was in Providence cemetery, where the deceased will rest in peace until the final call.

A VERY CLEVER CATCH.

Deputy Granger Bags Charlie Williams—Owns to Stealing Money.

Deputy Sheriff Granger has added another to his clever string of catches in placing Charlie Williams of Rochelle, an Afro-American citizen, behind the bars charged with unlawfully coming into possession of the pocket-book of Captain Peake, conductor on the High Springs and Citra branch of the Atlantic Coast Line.

The pocket-book was stolen some time on Wednesday and Captain Peake reported his loss to Deputy Granger, who commenced business at once. He saw Williams about the city, noticing the fact that he had purchased a new uniform—being a flagman on the Atlantic Coast Line, also observing that Williams was spending money quite freely. Feeling confident he was the man for whom he was looking, he marched Williams into camp and after a search of his person found the pocket-book and about twenty dollars of the money. The prisoner was put through a course of questioning, when he finally owned up to the theft. He was locked up in the county jail Wednesday night and will be brought before Justice Colman this morning for a preliminary hearing.

Conductor Peake was unable to state when or how Williams got the pocket-book, but it was thought he picked it up when the conductor was engaged making out his returns. The amount of money it contained he was unable to state. He was lucky, however, in placing the matter in the hands of Deputy Granger, who ran his man down in short order before he had time to use up all the money.

If the Baby is Cutting Teeth

ANIMALS' WANDERINGS.

Rats the Most Migratory—Lemmings Race With Death.

The fable of the country mouse and the town mouse has a foundation in fact. Mice occasionally migrate in large numbers when food grows scarce and travel considerable distances to fresh houses. Farmers in a part of Perthshire had a good reason to become aware of this fact when a couple of years ago vast swarms of mice invaded their cornfields at harvest time.

But the mouse only travels when it has to. The rat, on the contrary, seems to take a yearly outing in very much the same fashion as do human beings. Rats are the most migratory creatures in the world. Whole troops of rats leave the towns at the end of summer and spend a month or two in the country, apparently in order to enjoy the change of food, which the county affords at that time of the year in the way of fresh fruit and grain. Before the cold weather sets in they are all back in their old quarters.

Reindeer migrate with the same regularity as swallows. They move south when winter sets in, but as soon as ever the snow begins to melt they travel steadily north, sometimes for as much as a thousand miles.

To end a holiday by deliberate suicide is so strange a phenomenon that for a long time naturalists looked upon the stories of the migration of the lemmings as an improbable fiction. Yet the facts are beyond dispute. At irregular intervals these rat-like creatures start out from their homes in the fastnesses of northern Scandinavia in huge droves, numbering tens of thousands, and travel steadily southward. Death pursues them in a hundred forms. Hawks and other birds of prey hover above them. Foxes, wolves and man decimate them. Thousands are drowned in rivers. Yet the rest struggle on until they reach the sea. They do not stop. They plunge in, swim out and struggle on until at last their strength fails and they drown. Not one ever returns from this journey of death.—London Answers.

Paid Her Back.

"Gracious, my dear," said the first society belle spitefully, "I trust you're not ill! You look so much older tonight."

"Do I, dear?" the other replied sweetly. "I feel quite well. And you—how wonderfully improved you are! You look positively young!"

A Subtle Distinction.

"Did the critics like your performance of Hamlet?"

"The critics," answered Mr. Stormington Barnes, "liked it. But a large number of persons who assume to be critics did not."—Washington Star.

Nothing more completely baffles one who is full of trick and duplicity than straightforward and simple integrity in another.—Colton.

Tired, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous Prostration and Made Strong and Well.

Mrs. Chester Curry | Mrs. Chas. F. Brown

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly.

The ills of women act like a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency, "the blues," sleeplessness, and nervous irritability of women arise from some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feel like crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; bearing down pains; nervous dyspepsia, and almost continually cross and snappy?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women testify to this fact.

Mrs. Chester Curry, Leader of the Ladies' Symphony Orchestra, 42 Saratoga Street, Boston, Mass., writes:

Dear Mrs. Pinkham:—

"For eight years I was troubled with extreme nervousness and hysteria, brought on by irregularities. I could neither enjoy life nor sleep nights; I was very irritable, nervous and despondent.

"Lydia E. Pinkham's Vegetable Compound was recommended and proved to be the only remedy that helped me. I have daily improved in health until I am now strong and well, and all nervousness has disappeared."

Mrs. Charles F. Brown, Vice-President of the Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham:—

"I dragged through nine years of miserable existence, worn out with pain and nervousness, until it seemed as though I should fly. I then noticed a statement of a woman troubled as I was, and the wonderful results she derived from Lydia E. Pinkham's Vegetable Compound, I decided to try it. I did so, and at the end of three months I was a different woman. My nervousness was all gone, I was no longer irritable, and my husband fell in love with me all over again."

Women should remember that Lydia E. Pinkham's Vegetable Compound is the medicine that holds the record for the greatest number of actual cures of female ills, and take no substitute.

Free Advice to Women.

Mrs. Pinkham, Lynn, Mass., invites all sick women to write to her for advice. Mrs. Pinkham's vast experience with female troubles enables her to tell you just what is best for you, and she will charge you nothing for her advice.

HE LOVED THE THEATER.

Farces and Clowns Were the Joy of George III. of England.

Few men of any rank or time have ever derived so much unaffected pleasure from the theater as George III. In fact, in the words of a contemporary, it was "as good as a play to hear the royal laughter and note the genuine enjoyment of his majesty." "He is said," Thackeray wrote, "not to have cared for Shakespeare or tragedy much. Farces and pantomimes were his joy, and especially when the clown swallowed a carrot or a string of sausages he would laugh so outrageously that the lovely princess by his side would have to say, 'My gracious, monarch, do compose yourself!' And he continued to laugh and at the very smallest farces as long as his poor wits were left him."

So frequent were George's visits to the theater that "his face was the most familiar in London to playgoers, who took no more notice of his presence than if he had been a simple citizen, except when his boisterous laughter drew attention to him and started others laughing out of irresistible infection." As familiar a spectacle as that of his majesty purple and rolling with laughter was to see him sleeping as peacefully as a child between the acts.

So partial was he to actors that he permitted and even smiled at liberties which he would have resented in any one else. On one occasion, when Parsons was playing in "The Siege of Calais," the actor walked toward the box in which George was sitting and addressed him in the words of his part: "An the king were here and did not admire my scaffold I would say: 'Hang him! He has no taste,'" a piece of impudence which threw his majesty into a fit of laughter.—London Tit-Bits.

Itch—Ringworm.

E. T. Lucas, Wingo, Ky., writes, April 26th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me permanently. Since then I have used the liniment on two separate occasions for ringworm and it cured completely. 25c, 50c and $1 bottle. Sold by W. M. Johnson.

Admitted the Lie.

Concerning King William IV. of England the following story was told, the Countess of Strafford being responsible for it: "The king was at dinner. Next to him was a titled woman whom he was entertaining with some extraordinary anecdotes, which the lady found it impossible to believe were true. She therefore answered, 'Oh, sir, I beg your pardon, but I really do not think that can be true.' To her surprise he instantly replied, 'You are quite right, marm, there is not a word of truth in it. It is a lie, marm, a lie. In fact, marm, we all lie; we can't help it. We had it from our mother!' This," concludes the Countess of Strafford, "was the biggest lie of all, for Queen Charlotte was a very truthful person, never given to lying."

Stories of the Gravediggers.

Grimly humorous is the tale of the gravedigger who complained that he did not get constant work.

"But, George," said the minister, "if you were to be constantly employed in the duties of the office you would soon bury the whole parish."

"That micht be, sir, but hoo am I to keep a wife and family unless I get regular work? 'Deed, sir, I havena buried a leevin' soul for the last six weeks."

Harder still was the case of another gravedigger who was asked to reduce his fee for digging a grave because, "mind ye, James, she was an auld woman and was sair spent."—Chicago Tribune.

NOTICE.

To whom it may concern:

Take notice that on Friday, the 10th day of February, A. D. 1905, at eleven o'clock a. m. of that day, at the door of the court house of Alachua county, Florida, in Gainesville, Florida, I will sell at public auction to the highest bidder for cash, the following bonds made and issued by the American Oil and Chemical Company, a corporation organized and doing business under the laws of the State of Florida, with its plant, machinery, etc., at Gainesville, Florida, to-wit: 20 bonds of $1.00 each, dated April 1, 1903, and payable on April 1, 1913, with interest payable semi-annually on first days of April and October of each and every year at 6 per cent per annum; the said bonds being held by me as collateral security for the payment of indebtedness due me by the said American Oil and Chemical Company.

CARNEGIE TO THE RESCUE.

There have been a good many sensations growing out of the affairs of the Chadwicks, and not the least of them by any means is that now created by Mr. Carnegie. The public is not informed as to the cause which has induced the millionaire to come to the financial rescue ef persons in Oberlin who suffered through Mrs. Chadwick's operations. Only the bald fact that he has done so is given out and so, for the present, every one can think as he pleases. Whether Mr. Carnegie will go still further and pay all of the Cleveland woman's debts is a matter of speculation. The case would not be so remarkable if it were not for what has gone before. Mr. Carnegie announced years ago that it was a disgrace to die poor. Both before that announcement and since he has given away a great many millions in the way of establishing public libraries and such like, but there is a suspicion that he has plenty left. Perhaps he sees in the Chadwick case a fine opportunity to still further deplete his fortune. Mrs. Chadwick has proved that she is a very energetic distributor of other people's money, and may be just the personage that Carnegie needs to save him the disgrace of dying with money in his clothes. He is getting old and his efforts to get rid of his surplus cash have proved a severe strain. With Mrs. Chadwick's valuable assistance all this can be changed.

But his assistance will not relieve the old banker at Oberlin, Ohio, who was wrecked financially and is now a broken-down man physically and will never recover from the shock of his transactions with the magnetic Chadwick woman.

The mother of the President of France is dead at the age of ninety-two years. She lived on her farm in the Commune of Marsanne, where her son was born. She preferred her home life in the country to the atmosphere of Paris, for there she could wear her homespun dress and her gingham apron. Without them, according to her mode of life, she would have been uncomfortable even if not unhappy. Provident, frugal and simple in all her habits, she was like the mother of the great Napoleon, prepared to take her son in case of adversity. "Who knows," said Madame Letizia Bonaparte when asked why she did not live in Paris during the splendor of the Empire, "but that I may yet have to feed all these Emperors and Kings." So thinking she gave her attention to the family estate in Corsica.

The preacher was innocent in it and did not intend to cast a reflection on the choir, when one day most of the singers had bad colds and their seats were empty he selected a hymn he thought the entire congregation could sing, and said: "Since Providence has seen fit to afflict the choir with bad colds let us all join in singing "Praise God From Whom All Blessings Flow." Most of the choir were so mad they talked of resigning.

The uprising in Poland is but the rekindling of the flame which has been smouldering for years—since the insurrections of long ago. It is not nihilism that is stirring up the liberty-loving Polanders, but a desire for independence, the same as was enjoyed before Russia subjugated them, wrested their lands from them and persecuted the people for even conversing in Polish on the streets.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. China always manages to rake in a full share of trouble. Both Russia and Japan seem eager to carry their war into Chinese territory, and if they do who is going to stop them? For some time it has been known that the Russian government has felt that China was either unable or unwilling to preserve her neutrality and that a widening of the war zone might become necessary. It is said from St Petersburg that the agreement of the powers at Secretary Hay's suggestion to limit the area of hostilities was accepted by Russia in good faith, but that since China is not able to make good the strict letter of the agreement, it may soon find a blur on it. Of course, this is not the diplomatic language used, but it is sufficient for its present purpose.

D. E. Thompson of The St. Augustine Record was called to Georgia on Monday to the bedside of his aged mother, who was reported seriously ill, with slight hope for recovery.

J. P. Browning, who has charge of building the new road south of Port Orange, brought up three enormous oyster shells picked at random from the big shell mound which has recently been opened up. Two of these shells are long and narrow and will measure three and one-half by two inches, while the other one is fully three inches either way. Mr. Browning says the shell mound is fully a mile long and has been opened up to a depth of 20 feet; how much deeper it goes he has no idea.—Daytona Evening News.

CARPENTERS ORGANIZING.

White Carpenters Have Fine Union. Colored Are Coming Together.

The carpenters of this city and section, apparently with a desire to adopt some uniform scale in the matter of wages, are coming together, and propose to have an understanding. This does not only apply to the white wielders of the saw and hammer, but the colored followers of the trade are acting in accord.

The carpenters, like other people who have regular trades, do not believe in giving their knowledge and their services for a mere song. They are masters of the situation as far as they are concerned, and have decided to get together.

Considering the size of the city there is no point in the South, or anywhere else, which can boast of more competent carpenters than Gainesville. But they have been disorganized, and work has been let out at almost any price people were willing to pay.

But the carpenters got wise. It was not because they felt inclined to "gouge" the people; it was not because they wanted more for their services than any good carpenter would charge; but it was because they were aware of the fact that, on account of disorganization, they were pulling against each other, and were really not receiving the just merits of their labors.

It was this that prompted the white carpenters to organize a union—not to agonize the contractor and builder, but to protect themselves. The union was organized, a scale of wages fixed, and now everything is running smoothly. The white union comprises thirty-one members, and is in a prosperous and satisfactory condition to all interested.

The colored carpenters are arranging to form a union, and when this is done there will be a uniform scale throughout the city.

The News From Rex.

Rex, Feb. 1.—Our section has suffered some from the recent cold spell, but we are glad to report that orange tress are not killed in this section—will only lose their coat of green leaves. Cane seed is injured in some localities and the farmers will have to use the stubble for seed in many instances. Farmers in this section are cleaning up their lands preparatory to planting.

The many friends of Mr. and Mrs. C. W. Agin of Cincinnati are glad to have them here with us for a few weeks. They own a beautiful home here and are looking after their interests. They once owned a forty-acre orange grove here before the fatal freeze of '95. After an absence of several years they decided to come back and visit their Florida home, and enjoy our lovely climate.

Miss Nannie McIntosh came home last Friday and brought her cousin, Miss Myrtle Fennell, for a visit for a day or so. Their friends were glad to see them.

LaGrippe is raging in our little community; however, it is a lighter form than we generally have. In most cases it is affecting the school average.

Mrs. Steegal of Center is visiting her brother, J. L. Townsend. Her friends are glad to have her with us. She is a most estimable lady.

Mrs. Caudie and Miss Lottie Teeter made a visit to Orange Lane Sunday.

Died to Prevent Wreck.

Maysville, Ky., Feb. 2.—William H. Case, a civil war veteran died Tuesday from injuries received when he saved a Chesapeake and Ohio train from serious wreck by hauling a hand car partly off the track before the train struck it. He was crushed by the car, but the train would have gone over a high embankment if he had abandoned the hand car on the track.

Croup

Begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doeses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment to the throat.

Mrs. A. Vliet, New Castle, Colo., writes, March 19th, 1901: "I think Ballard's Horehound Syrup a wonderful remedy, and so pleasant." 25c, 50c and $1. Sold by W. M. Johnson.

TWO VERY STRANGE DEATHS.

Mother and Son Found Dead and Will Fill Same Grave.

Americus, Ga., Feb. 2.—Mrs. Mary Twitty and son, James Twitty, died last night and Tuesday afternoon the mother and son were laid away together.

Circumstances attending their deaths induce the belief that powerful drugs probably had been taken, but whether with attempt at self-destruction is a subject of conjecture.

Both were found in the same room suffering from paroxysms, and neither ever regained consciousness sufficiently to tell the story of their illness or possible attempt at self-destruction.

Mrs. Twitty was perhaps the oldest resident of Americus, and mother of the late Rev. Peter Twitty, once prominent in the south Georgia conference. James Twitty was a compositor out of employment, and despondency may have caused his act.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. Mill Men Fight Factory Bill.

Raleigh, N. C., Feb. 2.—A big fight is on in the legislature on the bill to raise the age for white girls allowed to be employed in cotton mills from 12 to 14 years, and provide that no boys under 14 can be employed in such establishments, unless they can read and write. Many mill men are here, and they are fighting the measure. There are several thousand children in the mills under 14 years of age. The Junior Order of American Mechanics is backin this movement with all its strength.

Young Woman Commits Suicide.

New York, Feb. 2.—The lifeless body of a young woman who had given the name of Mazie Leigh was found kneeling beside a bed in a hotel at Tenth street and Fourth avenue today. The young woman had shot herself in the heart. She told a woman with whom she formerly boarded that she was a student in the Northwestern university and had eloped from Evanston, Ill., with a student. The girl left a note saying she was tired of living.

The terms at which the bonds will be offered to stockholders have not yet been disclosed but will probably be announced a week from today to which date the meeting adjourned.

Commission Still in Session.

Paris, Feb. 2.—The North sea commission continued its sessions today. Lieutenant Ellis, of the Russian battleship Alexander III, gave circumstantial evidence of seeing a torpedo boat among the British trawlers in the North sea. He said he first saw a torpedo boat 2 miles off, steaming swiftly toward the squadron on a course to intercept the flagship. As the torpedo boat advanced searchlights made her plainly visible, and a heavy cannonade was opened on her. The torpedo boat, the witness continued, was evidently damaged, drew off to starboard and disappeared.

Russians Enroute to San Francisco.

Nagasaki, Feb. 2.—Five hundred and twenty-four Russian prisoners (paroled) left today on the French mail steamer enroute to Russia. Eleven Russian officers, who recently sailed from here, have returned from Shanghai on the steamer Siberia and are proceeding to San Francisco.

POINTED PARAGRAPHS.

When an attorney offers to settle, listen.

Some men try to get business by fighting people.

The successful business man is one who knows what people will not do.

When a man gets discouraged and quits, the doctor says afterward that that was just the time when he should have held on.

When one of the town boys marries an out of town girl it creates more "feeling" than when a town girl imports a husband.

When a man wants to sharpen a knife he hunts up a whetstone. When a woman wants to sharpen a knife she takes a few swipes on a crock.

It often happens that the woman who has a reputation far and wide as a judge of a good bargain seems to fall down when she picks out a husband.—Atchison Globe.

Mediaeval Monarchs.

Almost every mediaeval monarch claimed the whole or a part of the dominions of almost every other and insisted on inserting his claim in his list of official titles. In treatises and all official documents the whole list was religiously copied, and as it often happened that the two negotiating monarchs had some of the same titles it became usual to insert a clause in the list, non praejudicando, in order to indicate that, no matter how absurd, inappropriate or untrue were the titles, they were understood to be inserted because they pleased the monarch who claimed them, that they did not confer a valid claim, and so no harm was likely to result from their use.

An Ingenious Scheme.

A story is told of a Chicago girl whose verses were always "declined with thanks" who hit upon the following unique plan for having them published. She would send a line of verse from one of her poems to the query column of some newspaper and ask from what poem such a line came, the name of the poem and of the author. A friend, also a rhymester, would send the querist's own poem to the paper with the desired information, and of course it would appear in print. The querist would do the same for the friend and so on until between them they had all their "poems" printed.

THE LOST PARADISE

THEORIES AS TO THE LOCATION OF THE GARDEN OF EDEN.

The Consensus of Learned Opinion Supports the Belief That Adam and Eve's Original Home Was on the Great Babylonian Plain.

Almost every spot of the globe has had the claim made on its behalf that it is the site of vanished Eden. Most persons seem agreed on the fact that paradise has disappeared from our midst. The question is, Where was it situated? To those who deny the Biblical story of man's genesis the question takes another form, and they perplex themselves as to the spot in which man first appeared on this earth. Some evade the difficulty by saying that man appeared in many different spots—that he did not spring from one original.

If we accept the doctrine of the Darwinians we are forced to confess that the place where man first evolved must have been anything but a garden of Eden. It must have been a haunt of mere animalism, and its food would certainly not have been fruit. Roughly speaking, therefore, there are two schools—those who believe that man came from a divine original, but fell away from his first estate, to which with infinite labor he may return, and those who believe that he evolved from the beast and is still evolving to the greatness that he may ultimately attain. Setting aside these somewhat discordant theories, we may well ask, Where was Eden?

The soundest scientists are agreed that mankind came from a single origin—whether a distinct creation or an evolution is beside the mark—and the original man must have had a local habitation. The geographical manuals and maps of the middle ages leave a good deal to be desired in the matter of accurate detail, but they have at least the merit of boldness, and if we go to them for an answer to our question we may get something like a definite reply. According to an old map of the thirteenth century, paradise is a circular island lying near India. It is surrounded by a wall in which is a gateway opening to the west. The gate is closed and the wall quite insurmountable. Our later atlases do not locate this happy island.

Other early maps would have us believe that Eden lay in central China. We can go with these ancient geographers so far as to place the probable site of man's birthplace in Asia, but the consensus of learned opinion does not incline either to India or China. Eminent authority supports the idea that Eden lay somewhere on the great Babylonian plain, watered by the Tigris and the Euphrates—the Perath and Hiddekel of Genesis. Other authorities give their vote for Armenia, possibly influenced by the tradition which says that the Ark rested on Mount Ararat, but this tradition would only point to Armenia as the probable first home of postdiluvian man.

Professor Delitzsch and Professor Sayce favor Babylon; Heidegger favors Palestine; Media, Arabia and the upper Nile have all their supporters. Quatrefages, treating the subject solely from a scientific standpoint, concludes that Auguistic and other human types point to central Asia, but does not decide on any precise locality.

With the author of Genesis, as Dr. Kalisch has remarked, "Eden is geographically described in a manner which leaves no doubt that distinct locality was before the mind of the author." Even to those who think that this author was building on uncertain traditions it must yet be of interest to know what this locality was. Babylon was the most fertile land known to the ancient world; its poorest fields repaid cultivation fiftyfold, its better a hundredfold. Its luxuriance of fruit and grain was so great as to be actually embarrassing. There is no question at all that this district was the seat of Asia's earliest civilization and therefore why not say of the world's?

The idea of man created perfect and living in a garden of fruitful loveliness has always had a fascination for poor humanity, recognizing its present imperfections and the frequent distressing dismalness of its present surroundings. Even those who knew nothing of the Bible story pictured such a spot for themselves. Every early mythology has its fortunate isles, its Atlantis, its Hesperides, its Arcadia and its Golden Age.

Some persons even conjectured that paradise had not been on the earth at all, but was an island floating in the air, something like the island visited by Gulliver. They did not wish to think that the sacred spot could be submerged by the waters of the deluge, and by this device they raised it above any such calamity. On this island dwelt the sacred phenix; the well of life flowed there, the elixir of immortality; leaves never fell from the trees; the sun shone always on a perpetual summer. Men declined to believe that Eden had been destroyed forever. They preferred to imagine that its gates were closed to them for a season. To deem that such a spot could vanish seemed sacrilegious.

Many an early voyager and explorer had strange dreams of discovering some earthly paradise when he set out for unknown shores—dreams perhaps not spoken, but secretly nourished and strengthened by unconquerable force of romantic superstition that lived in the heart of ages in other ways so dark. Even the Elizabethans dreamed always of some more wonderful country to be discovered. Their toils and perils and fightings had ever the redeeming glamour of romance. In those days was the true poetry of travel. There was always some El Dorado, some hidden Eden, to be reached.—Kansas City Independent.

A PRAIRIE DINNER.

Cooking Utensils May Be Dispensed With In Preparing It.

Suppose you start on a trip across the mountains. You have plenty of "grub," but you accidentally left your cooking utensils behind—not a dutch oven, not a frying pan, not a tin plate, even a tomato can. Do you suppose for a moment I would sit down on that sack of flour and starve? Not quite.

Build a big fire and when it gets low shove a lot of good old spuds under the coals. If you have fresh meat the way is clear for broiling. If not, slice your bacon, impale it on a stout switch and when your spuds are done break them open and allow the good old bacon grease to drop on them as it broils on the end of that stick. You want coffee. Rip the jacket off that canteen, bring the water to a boil, funnel your coffee in, and your coffee is ready. But how about the bread? No pan to mix the dough in, no article in which to bake the bread. You don't like ash cakes? All right. Just mix your baking powder carefully in the top of the sack, form the flour into a funnel shape, pour in very little water at a time—don't be afraid of getting your fingers balled up—mix that dough right there, and when it is the desired consistency roll it out like a snake. Cut a cane from any old thing, wrap this snake shaped piece of dough around it in a long coil, turn it before the fire until it is good and brown, and you will have finer bread than grandma ever made.

If the average Arizona prospector can't take care of himself when he has plenty of raw grub it is strange.—Mescal in Tombstone Epitaph.

A KIND HUSBAND.

Should He Never, Ladies, Oppose the Wishes of His Wife?

Is the kind husband a failure?

That depends. A husband can scarcely show his wife too much kindness. But sometimes real kindness may be shown in opposing her wishes. If the husband has any mind of his own he must use it. He need not be mean in his opposition nor arrogant nor tyrannical. He should be reasonable at all times and disposed to highly regard the expressed wishes of his wife even though these wishes may seem to him to be whimsical or capricious. But—

Kindness does not require subserviency or satire and instant surrender of opinion. Indeed, it is easy to see how such surrender might lead a wife to despise her husband. He who fetches and carries like a poodle is likely to be considered a poodle.

Women admire strength in a man.

This strength need not necessarily be physical, though that is desirable. Women love strength of character in a man. And—

Is it not so, ladies? When a woman coaxes a strong man to his point of view by strenuous endeavor, does she not regard it as merit to have influenced this big, strong being? If she gains her own way at once and at all times she has neglected nothing, and there is no rejoicing in her heart.

Certainly a man should be kind to his wife—always kind. But he need not be an automaton or an echo or a plaything.

Is it not so, ladies?—Albany Times-Union.

To Whom It May Concern:

Notice is hereby given that the State of Florida has filed in this office the following lists of lands selected by the State for School Indemnity under the Act of Congress dated February 28, 1891.

The following tracts, embraced in said lists, are in townships containing mineral claims of record, viz:

List 110, filed August 14, 1903, for E½ NW¼, W½ NW¼ & NE¼ SW¼ Sec. 20, Tp. 11 S., R. 17 E.

List 112, filed Sept. 25, 1903, for SE¼ SE¼ Sec. 18, Tp. 11 S., R. 17 E.

List 117, filed Jan. 9, 1903, for NE¼ NE¼ Sec. 2, Tp. 12 S., R. 17 E.

List 121, filed Oct. 5, 1903, for N½ NW¼ & SW¼ NW¼ Sec. 33, Tp. 11 S., R. 17 E.

A copy of said lists, so far as relating to these tracts, by descriptive subdivisions, has been, unobtrusively posted in this office for inspection by any person interested and the public generally.

If within the next sixty days following the date of this notice, under the departmental regulations of Nov. 27, 1896, (23 L. D., 450) protests or contests against the claim of the State to any of the tracts or subdivisions herein described, on the ground that the same are more valuable for mineral than agricultural purposes, will be received and noted for report to the General Land Office at Washington, D. C.

Failure to protest or contest the claim of the State to said land within the time specified will be considered sufficient evidence of its non-mineral character, and the selection being otherwise free from objection will be recommended for approval.

W. G. ROBINSON, Register.
HENRY S. CHUBB, Receiver.

Wanted—To rent a good upright piano for several months. Address, with terms, P. O. Box N., Gainesville, Fla.

Miss Mattie Gray of Palatka, who has been visiting Mrs. H. A. Ford in this city, returned to her home yesterday.

F. H. Clyatt of Clyatt Station, one of the most progressive citizens of that section, was a business visitor to this city yesterday.

H. C. Stevens, the jeweler of High Springs and watch inspector for the Atlantic Coast Line, was among the visitors to this city yesterday.

Mrs. J. C. Newberry of High Springs was in the city for a few hours yesterday. She was en route to Micanopy, where she will visit friends.

J. B. Dell, Jr., who is now making his home at the Dell homestead, Hague, was among those who paid the county capital a visit yesterday.

Mrs. J. H. Coombs of Apalachicola is in the city. She is on a visit to her sons, Percy and Chauncey, who are attending East Florida Seminary here.

J. B. Padgett, senior member of the firm of Padgett & Black, naval stores operators, has returned from a trip to Hague, where the business is located.

W. B. Sadler, formerly of this city but who for the past few months has been residing in Tampa, has arrived in the city. Ben was always a popular boy here, and grew up as a young man in the same way. His friends are glad to see him.

Division Trainmaster A. L. Glass of the Atlantic Coast Line has returned from points in South Florida, where he has been on official business. He states that the people of South Florida are not at all discouraged by the recent cold snap, and that the section is a scene of industry.

S. L. Turner of of Micanopy, one of the best farmers in the county, was trading in the city yesterday. Mr. Turner came for the purpose of taking several hundred pounds of fresh pork from the cold storage, but after arriving here decided to allow it to remain for a few days longer. He is one of the farmers who makes all the meat and grain his family can consume.

Insure with Cushman & Hill.

Miss Cameron of Rocky Curve was shopping in the city yesterday.

Burrell Wiggins of Hague was among those who came to Gainesville trading yesterday.

Col. E. C. F. Sanchez has returned from Starke, where he has been on professional business.

Dr. J. Harrison Hodges has returned from Jacksonville, where he has been for the past two or three days on business.

E. C. Fisher has removed from North Gainesville to South Gainesville, where he and his family are now comfortably located.

John W. Ettel of the Hamilton Hotel, White Springs, member of the firm of Ettel & Son, proprietors of the Brown House, was a business visitor to this city yesterday.

Our labor contract saves possible loss from advances made to employes. Price: 50 or less by mail, 3½ cents each; $3 per hundred; cash with order. THE SUN, Gainesville, Fla. daw

J. Purdee Carter of Micanopy was among those who favored Gainesville with a visit yesterday. Mr. Carter has been indisposed for several months, and his Gainesville friends will be gratified at the information that his condition is greatly improved.

R. T. Schafer, the North Gainesville baker, was the victim of an accident Wednesday from which he sustained a sprained ankle, and which has inconvenienced him considerably. Mr. Schafer, in alighting from his wagon, in some way turned his left foot sufficiently to produce the result. He continued his duties, however, and aside from a little inconvenience is "right side up."

C. P. Huffman of Melrose, the popular proprietor of the Huffman House, was in the city yesterday for the purpose of consulting Dr. J. H. Alderman in regard to some dental work. Mr. Huffman is a Northerner by birth, but has been in this section so long that he might properly be termed a "Cracker"—and he is a good one, too, for none more enterprising ever lived. He has done a great deal for Melrose in the matter of attracting tourists there, and deserves the thanks of the people of that progressive town for his energy.

Gainesville's lively suburb, North Gainesville, keeps apace with the times. The people of that section are a progressive set, and always avail themselves of an opportunity. They are always found talking of the advantages of North Gainesville, with the result that they have created a demand for houses which is astonishing. An enterprising merchant of that burg stated yesterday that residences were very scarce, and it was doubtful whether one could be found for rent in the place. The North Gainesville people are as clever as wese ever born, and it is no wonder that houses are always in demand in that suburb.

Although the weather was rather unfavorable, the entertainment at the opera house last night, given by the Twentieth Century Club, was well patronized. The musical program as well as literary numbers were admirably rendered. The singing by the old favorites was heartily received and the recitations well rendered. A detailed report of the entertainment will appear later. Owing to the fact that Miss Wimberly, who was on the program for several numbers, was suffering from an attack of la grippe, she was unable to appear. This was very much regretted by the audience, as she is considered one of the most gifted elocutionists in the South.

Mobile, Ala., Dec. 24, 1890.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking The Texas Wonder, Hall's Great Discovery, and being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder." Yours truly, W. B. CLARK, M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes; seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Insure with Cushman & Hill.

C. W. Stephens of Alachua was among the visitors to this city yesterday.

W. H. Traxler of Traxler, a merchant and ginner of that place, was transacting business in this city yesterday.

E. D. White of Hague, one of the progressive farmers of that section, was among the traders to this city yesterday.

The residence of Captain J. Maxey Dell, East Gainesville, is being improved by an addition of a bath room on the north side. This addition will afford Captain Dell and his family one of the most comfortable homes in this section.

Our contract with persons to whom advances are made to assist them in growing crops is iron-clad. Just the thing for merchants who advance to croppers. $2 for 50; $3 per hundred, cash with order. Not less than 50 sold. THE SUN, Gainesville, Fla. daw

The Woodmen of the World, local camp, held an interesting meeting last night, at which State Organizer C. H. Dame of Ocala was in attendance. Mr. Dame made an appropriate and impressive address to the members present, which inspired them with a determination to increase the membership. The Woodmen is one of the finest fraternal insurance orders in the State, and there is a fine lodge here.

Yesterday, February 2, was what is called "ground hog" day, when it is said the ground hog, or woodchuck, comes from his hole where he has been hibernating for the winter, and if the sun shines so he can see his shadow, he returns to his winter quarters, and in the northern latitudes six weeks more of winter may be expected. If the sun don't shine, warm weather will soon come. This rule does not always hold good, but the sun did not appear yesterday, so we may expect fair weather.

The Seven Day Adventists, who have been holding a series of meetings under direction of Elders Crislan and Killen at the North Gainesville Hall, have enjoyed gratifying success, having been successful in making several converts. The meetings have been transferred, however, and in future, until the close, will be held at the home of Harry Lewis, North Gainesville. The public is invited.

Agent Welch of the Southern Express Company returned a day or two ago from points in Lake and Sumter counties, where he has been in the capacity of acting route agent for the company. Mr. Welch states that he made a thorough investigation of the condition of affairs as a result of the recent cold snap. A great many of the vegetables and some fruit was frozen, but the trees were unhurt, even the tenderest sprig withstanding the cold. About sixty per cent of the orange crop had been shipped, and, inasmuch as all the fruit was not frozen, the loss will not be so severe. The people are happy and prosperous.

where they will be sold regardless of former prices. The Remnants will be large enough for Waists, Ladies' Skirts and Children's Dresses. Now is your time to buy. LADIES' WAISTS AT HALF PRICE.

MRS. R. WILSON.

Elder Crislan and Miss Mary Beville have returned from a pleasant visit to friends at Ward City.

At the Daughters of Rebekah supper at the opera house this evening the ladies will have home-made candies for sale. Another and very pleasant feature will be musical selections on the piano and by the mandolin and guitar club members.

The Golden Rule Bottling Works, Farman & Nine, proprietors, are getting in shape for the season. They will place on the market a fine quality of soft drinks. The works here will be in charge of George Farman, a very agreeable business man.

James F. Pixon, a clever young man of Jasper, has arrived in the city and has accepted a position as prescription clerk with J. W. McCollum & Co., druggists. Mr. Pixon comes highly recommended, and it is to be hoped he will be well pleased with his new home.

Chas. R. Carter, for several years employed as a conductor on the Atlantic Coast Line, has tendered his resignation, and will engage in the mercantile business at Ocala, having purchased one of the largest and most successful groceries in the Brick City. Captain Carter is well known in this section, having been formerly a conductor on the High Springs-Micanopy run. He is quite popular, and the traveling public will regret to lose his services.
